# MENISEMENI

QUEEN'S present Lenore Ulric in "South Sea Rose." Her new starring role stays within the realm of the races but provides a type somewhat apart from ; her previous delineations. She is a fiery, passionate half-caste of the tropics, almost barbaric in her frenzy for freedom and full of th whim of her unknown ancestry. A talkie film.

CENTRAL again features Maurice Chevalier and Jeanette Macdonald in "The Love Parade." "The whole tone of the picture is one of majestic lavishness of production blended with inspired simplicity and directness of action sequence. The songs fit neatly into the scheme, the plot unravels without a pause or an over-hasty leap, the characters are natural the comedy is free-flowing and robustions, the satire is spicy, the dialogue racy, yet not maudlinthe picture, in sum, is an amazing piece of entertainment, one that Supreme Court, which should mainment in the New Show World.' A talkie film.

MAJESTIC presents Adolphe Menjou in "His Tiger Lady," picture of lurid fascination. When we made the scenes in which three tigers appear in 'His Tiger Lady' we had five, sharpshooters stationed on the set preunruly or dangerous to the actors, Over 100 actors had to appear on the same set with the animals, and we all worked under a strain while the scenes were taken. Although the tigers are circus ones, and supposed to be tame, we couldn't feel at ease we didn't take any chances. scenes were completed and animals safely behind bars." A selves publicly. silent film.

STAR features Dolores Costello and Conrad Nagel in "The deeming Sin." Dolores stars as a tempestuous apache dancer of the Paris underworld and Nagel as a doctor, who has established his office in the slums of the city and is called in to attend wounded brother of the heroine. The characters that surround table propaganda other than unreathem conspire to make a melo-sonable personal animus. Nothing drama of thrilling and glamorous intensity. A silent film.

and Lars Hanson in "The Scarlet in Johore. That statement is The opportunity of serving you Letter." The picture has been pathetically ridiculous. And we, timates of expenditure for will be a pleasure and your com- staged on a lavish scale with a who have known Johore for the past mands will have our best atten- large cast of celebrities. As the 20 years, and have the well-being of little seamstress whose great love this State very near at heart, can caused her to rise to almost testify that the welfare of Johore angelic heights, Miss Gish gives a has never progressed more consistmemorable performance. summate artistry marks every regime of these honourable gentlephase of her struggle against in- men. It is a disgraceful thing that tolerance, and the climax holds the Supreme Court should have been

#### JOHORE GAME LAWS.

Judge's Views Attacked in Council.

"DISGRACEFUL THING."

Kuala Lumpur, August 1. Speaking on the adjournment at the meeting of the Johore State Council, the Hon'ble Mr. W. Miller Maekay referred to the criticisms of the administration in Johore uttered by Mr. Justice McCabe Reay. He

"I am glad to have this opportunity to speak on a subject on which I have had to remain silent, because my information was obscure. ' I was not in a position to obtain the information I desired. refer to the extraordinary attack made by Mr. Justice Reay, acting under the guise of justice, first against His. Highness the Sultan, and then, very definitely, against his Advisers. . Enormous force was added to these attacks because they emanated from the Bench of the tain the highest traditions for truth and unbiased justice. Following on this propaganda, which gave the impression of personal animus, the Johore Council passed a resolution expressing entire confidence in their Advisers, Mr. Shaw and Mr. Pryde.

"I have read the paper laid on the table to-day, and am glad to see its justification of that vote of confidpared to deal instant death to any these honourable gentlemen. That ence, and its entire vindication of the breath of slander should have scorched these honourable gentlemen, who have done so much for the welfare of Johore, is as intolerable as that the reputation of the Supreme Court in Johore should have suffered. It is a matter for very grave concern that Malayan Civil Servants of such honourable and distinguished careers should were mighty thankful when the have been unjustly pilloried, when the they were unable to defend them-The Game Regulations.

"I have already referred to the alteration of the game regulations, for which we are duly grateful to His Highness the Sultan, and which took the place of the loose Enactment on which Mr. Reay chose to build his propaganda. These, new [ regulations were actually in force the at the time of his tirade, and I can see no object in the whole regretcould be further from the truth than Mr. Reay's statement that the General Adviser and the Legal WORLD presents Lillian Gish Adviser established a reign of terror Con- ently and wisely than under the used for the purpose of bringing disrepute on the State for which it should be the mouthpiece of justice." -M.M.

#### EXPERT BURGLARS' HAUL

Sir Thomas Catto's

London, July 12. "They have made a very clean job of it. They must have been experts," remarked Sir Thomas Catto, describing the surprise of his household on waking up to find that burglars had during the night cleared out every bit of silver in his house at Harrow Weald. The intrinsic worth of the haul is \$700, but all of the articles are of sentimental value. The seventeen per-

sons sleeping in the house did not

PAPERS IN ONE.

LOCAL NEWS. CHINESE NEWS. and all the NEWS. The Weekly paper that saves you

the trouble of writing Home.

A warrant for the arrest of Choa Man-ping, compradore of the Equitable Eastern Banking Corporation, was issued. during the week, following upon his alleged absconding from the Colony on August 2. Shortages are stated to amount to approximately \$1,000,000. The OVERLAND CHINA MAIL, which had the first exclusive news of the matter, contains the official communication from the Bank, in which it is made clear that the losses do not in any way affect its standing.

Details of the shocking tragedy at Lok Ma Chau Police Station were related to the Central Magistrate at a special inquiry. The graphic story of the Seggeant-in-Charge at the station, and the staff employed there, is reported in full in the OVERLAND CHINA MAIL.

Reported increases in salaries of China coastal officers are also discussed in the OVERLAND CHINA MAIL, which understands that the river steamers have offered an increase of 15 per cent., whilst other shipping companies have made a revision in their scales of payment.

Authentic accounts are to hand as to the rape of Changsha at the end of July. It is now learned that foreign gunboats were rushed to the spot, thus preventing what might have been a terrible atrocity. As it is, it is understood that 1,000 people were killed in the brief reign of terror. The OVERLAND CHINA MAIL carries complete dispatches as to the incident.

Local sport is fully dealt with, as usual, in the columns of the OVERLAND CHINA MAIL, the exciting race forpremier honours in the Lawn Bowls Leagues being studied from an expert angle.

There is no phase of the life of the Colony or of China that does not receive attention in the OVERLAND CHINA MAIL - the weekly paper that YOU MUST ORDER NOW.

fail to be written even by the most arrival brings. ardent correspondents. It is a unfailing supply of Hong Kong and Chinese news every week-by means of a subscription to the " Overland China Mail."

#### KING'S GOLD MEDAL. SELECTION DAY ON H.M. CADET SHIP CONWAY.

The annual ceremony of selecting the King's Gold Medallist on board H.M. Cadet Ship Conwaya custom which has now been observed for over 60 years—took place under the supervision of the Committee of Management, those present including Captains J. Fortay, C. H. Holtum (deputy chairman), F. E. Kite, F. Holt Hobson, Mr. Thos. Scott (Secretary; Mercantile Marine Service Association).

Following the customary mode of procedure, the Cadets were drawn up on the main deck, while Captain F. A. Richardson, D.S.C., R.N., read out the regulations governing the prize, which is awarded to that cadet having those qualities which will make the finest sailor. These consist the output was 1,177,235. of cheerful submission to superiors, self-respect and independence of character, kindness and protection to the weak, readiness to forgive offence, a desire to conciliate the differences of others, and, above all, fearless devotion to the latter half of the year will duty and unflinching truthful show a substantial increase over

#### THE **FIRST** MONTHS.

#### Motor Ship Construction

At the beginning of the year taking into consideration orders in hand, says, the Motor Ship, it was thought that, provided no adverse circumstances developed, the production o motor ships in 1930 would be larger than in previous years. The completion of the first six months provides an opportunity to make a survey of the position, from which it seems clear that the belief was justified. In 1929 181 large motor ships were built totalling 1,130,475 tons gross, Wolff, Ltd. this latter figure having been slightly exceeded in 1928, when During the first six months of

1930 105 motor vessels of 666,000 tons gross have been placed in commission, and from the number of launches that have occurred in the same period it is evident that the first. It is hardly to be The names of five cadets who doubted that at the end of the

Chinese Dealer's Appeal Dismissed.

ELOW STANDARD STRENGTH.

Kuala Lumpur, Aug. 1. In the Supreme Court yesterday Navy into the mind of Rear Admorning the Chief Justice, the miral Richard Byrd, who is now re-Chan Yew Beng, owner and assist- youth, when he met John H. T. ant respectively of the firm of Flaherty, veteran of the United Chop Ban Tong Seng, Brickfields, States Navy, Flaherty, in an in-Kuala Lumpur, against fines for selling adulterated whisky.

Mr. S. N. Sharma appeared for newspaper tells how Byrd then Legal Adviser, Mr. R. C. Cussen first imbued with the "navy for the respondent.

Outlining the facts of the case Mr. Sharma said that on January 21 of this year a Mr. Vickers went, to Chop Ban Tong Seng and asked? for a bottle of Black and White years of age, he came to Manila. whisky. When he opened it on his where I was then stationed, to visit that the grotesque wooden figures, They are mentioned repeatedly not return home he thought it was not a relative, Judge Adam Carson, of up to ordinary strength. He wrote the Insular Court of First Into the local agents complaining of this and four days later at their stance." request sent on the remainder of this was sent to the analyst and a certain report put in.

#### Payment Refused.

In the meantime on February 4 in the company of the agent, Mr. while two other bottles were taken away the shopkeeper refused payment and it did not constitute a with another taken from the ster inspecting the place. agent's store, were also sent to the analyst. Mr. Sharma argued that 'certain' parts of the analyst's certificate were inadmissible evidence as they referred to the condition of the capsules on the bottles, and this reference had influenced the Magistrate in coming to his decision.

It was said that when Mr. Vickers made his purchase February 4 the two bottles "were handed down from the same shelf 21 had been taken. When it was handed over a Chinese passing by shouted out something and the salesman, the second accused, gave induce Mr. Vickers to hand back sailors. He could not be kept off yet he is never punished for them— range of Mr. Punch's activities has metres:the bottles in exchange for others. Ships. He went aboard every one barring an occasional knock been greatly restricted since his 6 p.m.—Aunty Pat, Uncle Dick money had been tendered outside troyers at Cavite and Olongapo triumphant at the end of associated on terms of utmost in- Kiddles.

Mr. Sharma further stated that while he did not say the whisky had been interfered with after left the shop and before reaching the analyst, it could easily have been and the prosecution had no taken sufficient precautions to ensure that it would not be tampered with. Had this happened in England there would have been prosecution.

Strength-of-the-Brand.---

· Counsel then dealt with the subject of the strength of the brand of whisky in question and referred to the evidence of the chief clerk of the Customs Department, who said that on no occasion had the strength been found to be below 72.7 per cent. On four different pass the examinations and become a play of Alexander the Great, and spectator several interesting traits "Old Folks at Home" (Foster), 75.3, and 72.7 per cent. There was 75.8, and 72.7 per cent. There was left Manila for a cruise to Europe Madame. Prudentia chose, more believe is at the root of this popul. The speak was therefore Origin of Punch.

Origin of Punch.

Origin of Punch.

The presentation will be made.

PUNCH origin of Punch is a fascinating but probably insoluble problem upon which a great deal of scholarly ink has been expended. All agree that he is at least three hundred years of age, but some assert that he is three thousand, deriving him, together with all the other Italian "maschere" with which he is certainly associated in some way, from the ancient Oscan plays known as the Atellanæ. It seems far more likely, however, that his main traits were developed near Naples by an On one of the more quiet streets actor named Silvio Fiorillo, early in of London's Soho or in the market the seventeenth century. This that has delighted millions of spec- soon became so familiar that it was

# ROLLS RAZOR

THE WORLD'S BEST SAFETY

THERE never was such a safety as the ROLLS RAZOR before. Compact and neat in its slim case it is unobtrusively ready to give a perfect shave every morning. Press the knob and up comes the lid, leaving the blade all ready for its daily stropping-a moment's automatic work. Then out with the blade and the handle too. Slip the blade into the handleand there you are, all ready for the best shave you've ever had.

THERE is only one blade with a ROLLS RAZOR. This blade is hollow-ground, made from tested steel by craftsmen. It is a blade to put confidence innot a miserable, puny affair like the water blades that are stamped out by machinery in thousands. The one blade of a ROLLS RAZOR will give years of smooth, clean shaves. And it is always kept keen by stropping and honing in its case. Get a ROLLS RAZOR and be sure of smooth shaves for years.

#### GREATEST CRICKET SENSATION.

Exclusion of Chapman Raises a Storm.

HIS DISAPPOINTMENT.

London, Yesterday. .The omission of A. P. F. Chapman from the Test team to do ser vice at the Oval comes as one of the greatest cricket sensations for many years. Famous cricketers and critics are amazed at the decision of the selectors, though nearly all agree that R. E. S. Wyatt is a reliable captain. Wholly Inexplicable, ..

In a lengthy review in the Sydney Sun dealing with the performances and ages of the Test sides, the writer says: "The rejection of Chapman is wholly inexplicable as he has played the parts of sheet-anchor, hitter, and match winner combined. His fielding has been one of the sights of the sea-

Chapman, when interviewed by the Daily Mail, naturally expressed his disappointment and frankly admitted that he failed to understand why he had been dronped, but said "With all my heart I wish Wyatt and his team comalete success." .

Verging on Hysteria. The Daily. Herald says that the exclusion of Chapman is now perilously like hysteria, and that the change is unwise and deplorable. Trevor Wignall, writing in the Daily Express, says that this extraordinary and highly sensational decision may be justified by the result, but at the moment it looks entirely foolish.-Reuter.

On the other hand, Mr. Jones might have been able to do all that Harry Vardon succeeded in accomplishing if he was asked to do so, and, in my opinion, he would succeed. He is one of those players who cannot help being successful with a golf club, no matter what

kind of shot they have to play. There is one indisputable fact: Mr. Jones is the best golfer in the world at the present time, and while he continues to play in the championships in Britain and America he must always be considered a probable winner.

-The strain of championship golf, however, is beginning to tell upon Mr. Jones, and I should not be surprised to hear that he had retired from big competitive golf during the next few years.

It is possible to explain. Mr. mind over the difficulties of the game. Behind his calm exterior is always a flerce struggle to control Baron von Zedtwitz, perhaps myself, nerves, which seem to be breaking down in the strain.

Championship Play Terrors. I am told that he suffers agonies hands, which will take six days. when he is playing in a championship. He enjoys neither food nor rest to their full extent and twice I have seen him at the end of a championship about as near to physica and mental exhaustion as it is possible for a golfer to be.

I have said repeatedly that I think in the standard of golf played by and the Club de Recreio, which points all. British professionals, and I repeat was left unfinished previously Parker, on resumption, narrowly when she appears on the courts: it. The Open Championship proved with the score at 23-18 in favour missed scoring, Cooke returning they know she can be relied upon

We must always expect the professional golfers of America who come to this country to play in championships to do well, because C. G. Silva they have a big advantage over the A. Ribeiro home-players.

In this country a professional is not expected to be merely a player. He must spend a great deal of his time teaching club-making and helping his club members. That is why he is attached to a golf club.

A Life of Tournament Play. meating it is a big oppasion, and he men are emerging from a sort of through the backs scored a try tune. plays in surroundings and circum- hibernation in their shops. stances to which he is not accustom. This does not alter the fact that ed. It is difficult to command one's the British standard is improving.

come over here spend most of their ments this season. lives playing in tournaments. They I doubt very much whether any of get a game or two outside our home rounds of medal play.

THIRD RUGBY

Match.

Auckland, July 26. In the third Rugby Test match, New Zealand beat the British touring team by 15 points to 10.

The match, which was witnessed by 42,000, was favoured by fine weather. The ground was heavy and a slight cross-wind was blowing. Britain won the toss and had the advantage of the sun. Bassett cleared New Zealand's initial attack. Parker dribbled cleverly. Black narrowly missed a penalty. Perfect handling by Poole and Spong resulted. in Spong sending over Bowcott to score a try, which Black converted from an easy position.

New Zealand then played up and gained the greater share of the game. Nicholls sent over a crosskick for Lucan to gather smartly The Spey Royal Cup tie be- and score. Strong converted. there is a very definite improvement tween the Kowloon Cricket Club At half time the score was five finishes as fresh as any of the

#### OUR NEW TENNIS "HOPE."

The Rapid Advance of F. J. Perry.

In England to-day there are two players of exceptional promise; J. S. Oliff and F. J. Perry, (writes H. W. Austin in the Evening for first-class tennis. News), Oliff is now looked upon as a veteran, but Perry is known as ,"the rising youngster." Both, however, are the same age-21.

I remark on this because directly a player has achieved a certain amount of success his age is usually put up by two years every year, so that quite a lot of people look upon Oliff as about 24,

Many people refuse to believe that Betty Nuthall is as young as she is: I remember, when Betty was 16, telling someone she was 16. "That's absurd," they replied,

"she's been sixteen for years!" Even I this year have been given the age of 24, while actually I am still struggling at the age of 23! In this article, however, I am not really concerned with ages, but with F. J. Perry, who, whatever his age, is the latest champion recruit to English first-class tennis.

A Ping Pong Champion. "Perry the Ping Pong Player," as he used to be known, was so called because he played Ping Pong, not the type of Ping Pong that you and I play on our diningroom tables, but real Ping Pong.

Pong champion of the world. Wait yet a little while, our dreams Maybe you did not know there was will come true. a Ping Pong championship; maybe never before have you seen a Ping Pong champion.

But Perry plays Ping Pong no more. The Ping Pong world has lost one of the leading exponents of its game.

Perry now plays lawn tennis instead. At school he was a dabbler in the game, making good bition to conquer the lawn tennis U.S.R.C. defeated the L.R.C. by world. This state of affairs, how- 9-0. Scores:ever, was not to last long.

Soon young Perry saw some first- (U.S.R.C.):class exponents of lawn tennis at beat H. J. Armstrong and Mrs. play. With head on one side he watched critically. "This game," he said to himself, "is really a better game than I thought. I think I'll take it seriously and win the championship."

And so young Perry went to a shop, bought himself a new racket. and started to play the game in

Then we see young Perry entering for the Evening News Lawn Tennis Tournament." It would make a good story to say that Perry won it. But Perry, I am sorry to beat H. J. Armstrong and Mrs. have entered for that competition beat H. Nyhoff and Mrs. have entered for that competition, got beaten.

At this critical stage of his career Perry's self-confidence stood him in good stead. He was undeterred. He went on playing, and even entered for an open tourna-

Perry's Rapid Advance. From that day his advance has been steady and his rise rapid.

And why? Because he is a player of natural genius Watch him play. Has he beat Y. K. Ng and Miss G. any difficulty in playing? No! Is Ho Tung ... 6-1 not his whole game one of ease beat F. Y. Khoo and Miss R. and rhythm? Yes!

Without doubt Perry is a player of outstanding promise, and a player of a certain amount achievement.

Perry is young, strong, and has natural ability. Moreover, Perry has enough self-confidence to keep a sinking boat affoat. What is there to prevent him from climbing the heights? In my opinion there is nothing.

He has an easy, well-placed serve, a forehand produced with an English grip with which he can hit the ball to any part of the court with equal ease, His backhand is almost as good

as his forehand, and both these strokes are weapons of attack. And Perry does attack, making openings with his ground shots for winning volleys.

Also he can volley, though the moment he lacks poise on the volley. There is a little too much beat K. L. and Mrs. Ho ... 6-2

leap, and jump. This, however, is a fault in the right direction. With practice and experience his volleying will become steadier.

Improved Ground Shots. At the beginning of this year his ground shots were erratic also, but during the last six months they have become almost unrecognisable in their improved stendiness.

Thus we see Perry has all the strokes at his command. He has the stamina and the temperament

from obscurity into the limelight. Club courts yesterday, when This year Perry has appeared. games were played. Results:-With the advent of these three

are always in a rreat hurry to force our promising players into champions. So long have we waited for a champion that our patience is short ...

We do not say "In five years time that boy will be champion." We wait a year and then we say: "They boy will never be a cham-

" TUST as good as Mobiloil at half the price" is one of many masks inferior lubricating oil hides behind.

A trial of Gargoyle Mobiloil has, time and time again, unmasked poor quality oil.

Many are the dollars spent on unnecessary repairsall due to the use of good looking, inferior lubricating oil.

And to hear a man say: "I do not know the name of the brand of oil I use" makes the average wage earner do some tall wondering. Probably using a masked oil and paying through his nose for it.

Let Mobiloil prove to you what there is to efficient lubrication. Let it unmask the lubricant you now use. Let it prove to you that it is the most economical lubricant available-bar none.

All you have to do is to drain off the old oil while the engine is hot and refill to proper level with the correct grade of Gargoyle Mobiloil.

VACUUM OIL COMPANY

# RECORD-BREAKER

In Value and in Volume

. . . From the very first day it appeared the De Soto Six has enjoyed enthusiestic public preference. Admiring its smartness, impressed by its quality, thrilled by its performance, owners everywhere pronounce the De Soto Six a sensational motor car. On the wings of this widespread prestige, De Soto Six sped to a top place in its field. The success of this car indicates the wisdom of inspecting it and driving it, for in no other way can you appreciate its unusual quality and value.

WITH THESE FEATURES Chrysler-designed, larger high-compression engines, using ordinary grades of fuel.

Self-equalising internal-expanding four-wheel weatherproof hydraulic brakes.

Fall pressure lubrication-rubber engine mountings -counterroughted crankshaft-camehaft driven by silent chain - semi-automatic spark control - four hydraulic shock absorbers - fuel filter - air cleaner.

#### MOTOR MINDED.

#### Venezuelan Leaders and Good Roads Movement.

films showing exactly how to start and operate a the National Automobile Chamber of Commerce are turning potential buyers into actual buyers in many foreign countries. The film describing how to operate a motor car was designed to overcome the bashfulness of people who are timid about their complete ignorance of the operation of a car and who consequently hesitate about even asking for a demonstration by a dealer.

Mr. Henry S. Sterling, National Automobile Chamber of Commerce representative in South America, reports this film enthusiastically received everywhere. Audiences inare eager to drive and who are doing so in ever growing numbers to the Sterling feel that these motion pictures will stimulate business and provided needed information on the care and operation of motor vehicles.

several films dealing with the construction of low cost roads and the value of automobiles as a contribution to the economic welfare of a country. During his present tour, body styles. Mr. Sterling will visit 150 cities in South America having already covered Venezuela and Colombia.

In Venezuela Mr. Sterling reports eleven successful meetings with a total of over 7:000 people.

In Caracas over 1,700 people crowded into the largest theatre in the city to see the film. All the radiator, gradually widening to a newspapers gave the meeting splendid write-ups, noting in particular an automobile costs 27 per cent. more in Venezuela than in the United States largely due to import duties.

At Maracay the meeting was atended by President Perez and General Gomez in addition to 300 government and highway officials and engineers. General Gomez bodies are upholstered showed much interest in the labour harmonising hues. Australian quiet dirt and weather proof insaving road machinery shown in the films and said he hoped to have Venezuela represented at the Sixth International Road Congress at Washington.

In Colombia the automotive films were shown at five meetings with attendance of over 6.700 people. Mr. Sterling writes that the motor trade in this country feel that the film shows have gone a long way towards counter-acting the slow-up in sales due to a prevailing economic depression. The meetings have led to the formation of a strong motor association to work for equitable motor taxation and good

Mr. Sterling reached Equador on July 25, continuing through Peru, Bolivia, Chile, and other South American countries.

#### PNEUMATIC TYRES.

"What date was the pneumatic tyred safety bicycle first used on Australian roads?" This interesting quary was recently addressed to the Dunlop Perdriau Co. A search through the company's records discloses the fact that Mr. Geo. R. Broadbent, one of the best-known wheel-men in the Australian cycling world, rode a Bayliss-Thomas bicycle shod with Dunlop pneumatic tyres in 1891. The machine weighed 57lb., was geared to 53in., whilst the wrapped-on tyres were of 21/4 in. diameter. The tyres had non-return valves. Broadbent used this machine in a 50 mile road race from Kyneton to Melbourne that year, and established fastest time. Two other wellknown Victorian cyclists, who, the same period were using pneumatics, were E. Rudd and A. Duff. At the time all kinds of unfavourable verdicts were cast on the cumbersome looking air-inflated tyre. It was not until about 1898-4 that the Dunlop detachable tyre, known as the Dunlop-Welch type was introduced into Australia. It is a remarkable fact that the same principle of pneumatic tyre attachment is practically identical to-day throughout the world, not only on millions of bicycles, but on over 80,000,000 motor cars and trucks. Should any old-time cyclists know of authentic particulars of earlier instances of the use of pneumatic tyred safety bleycles on Australian roads the Dunlop Perdriau Co. will appreciate details.

#### LATEST PONTIAC.

#### Improved Model for Australia.

General Motors (Aust.), Pty. Ltd., announce an improved model motor car, field representatives of of the Pontiac six. Completely assembled in Australia and carrying such a proportion of Australian equipment and material as to make the Australian character of the car infinitely greater than the American, the Pontiac retains all the qualities responsible for its record of success since its introduc tion in 1926, while many further refinements also have been achieved. The engine, developing, 60 brake horsepower at 3,000 r.p.m., provides a reserve of power which gives remarkable acceleration and cluded many women and girls who permits all-day high-speed performance. Body building craftsconsternation of the conservative men have developed smart lines, element. Those in the automobile charming colours and perfect protrade in the countries visited by Mr. portions and have given the bodies distinctive elements of style, beauty and appeal. The smartly designed body models are a four-Mr. Sterling also has with him door sedan, sports coupe, touring car and sports roadster. On the 110in, wheelbase remarkable riding comfort is provided in all these

While body dimensions, remain practically the same as last year, the appearance has been enhanced. One new appearance feature found in the half oval belt moulding, which starts at the narrow point just below the windshield post and carried in a straight line. of uniform width to the rear of the window openings, where it again narrows and follows the belt line around the back panel.

colour combinations, the closed

Attractively finished in new duco

coupe and sports roadster, may also be obtained on the sedan and tourer as special equipment. The wire wheel equipment includes two spare tyres and wheels cradled in fender wells, with chrome-plated retainer clamps.

A sloping windshield in the closed models not only contributes to improved appearance, but largely eliminates annoying reflections during night driving. Rubber cups on brake and clutch pedals the openings around pedal slots when the pedals are in normal position. An effective steering system operates on taper rollerbearings of the new hour-glass type, affording ease of control. An all-metal military type visor, tilting beam headlights operated by foot control; and a new instrument grouping on the ebony finishpanel also provide further elements of convenience and grace. A new built-in coil ignition lock operates from the instrument

Reduction in the deflection rate of the front springs is largely responsible for the enhanced riding qualities of the improved Pontiac. The hydraulic shock absorbers now restrain spring bound by means' of solid metal. rubber-bushed, links instead of straps, a change which enables

them to become instantly effective. Lateral rigidity of the crankcase has been greatly increased by the addition of external ribs extending along its full length and width, an advancement that holds the crankcase rigid even under the most severe strains of fast driving. This crankcase rigidity is an important factor in protecting the crankshaft bearings from wear. Smaller metric spark plugs have been adopted to eliminate any possibility of pre-ignition trouble. The four motor support brackets are insulated from the frame by rubber bushings, affording a further degree of smoothness and silence. semi-automatic, manually-controlled starting motor has been adopted which prevents the flywheel teeth from being chipped or broken. In the new type starter, the staring motor pinion meshes with the flywheel gear at the first downward movement of the starter pedal which makes electrical contract only when fully depressed.

Safe, sure control is further assured by the improvement of the leather upholstery, with trim to ternal expanding brakes. The slidmatch, distinguishes the open ing friction with which the toggle models, which have windshields joints of the Pontiac brakes with chrome-plated metal trim. formerly operated has been replac-Theft-proof door locks are provided by rolling friction through the ed on all closed models. New 19in. introduction of rollers on the togdiameter wheels, with large hub gles. This change provides even caps bearing the Pontiac name greater braking efficiency, while replate, are fitted. Wire wheels, ducing the necessary pedal effort. which are standard on both sports | The emergency brake lever, now

connected directly with the service brakes, enables the driver to apply additional brake pressure even though neglect of service brake adjustment should permit the foot pedal to be depressed to the floor

Full pressure lubrication is provided for the main and connecting rod bearings, and is regulated through a redesigned adjustable pressure relief valve. Oil is filtereduthrough 134 square inches of fine mesh screen extending completely across the oil pan and above the oil level. Another detail of the oiling system is a provision whereby the overflow from the pressure relief valve reaches the pump without being forced to filter through the screen. This represents an' important winter feature since the cold overflow oil is not permitted to pile up on the screen and starve the pump, but is returned immediately to be recirculated. The oil pump and distributor are driven by a vertical shaft off the camshaft. The oil pump circulates approximately 146 gallons of oil per hour at 25 miles per hour road speed. A safety drive feature, incorporated in the oil pump and distributor gear, stops the engine by "killing" the ignition in the remote event of the oil pump failing to function. This eliminates the danger of damaging the engine by operating it without proper lubrication. combination pressure and suction type of crankcase ventilator reduces dilution of engine oil by carrying off water vapour and combustion fumes before they can condense and drop into the oil pan. Fumes are expelled under the car. The G.M.R. cylinder head, whose

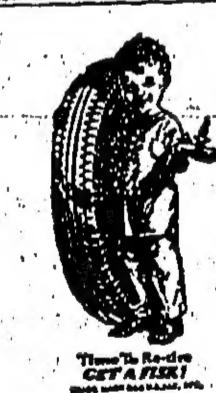

tonation, represents another feature which the engineers have retained. The head is cast in two sections, which may be removed without disturbing the distributor. The big 53lb. counter-weight crankshaft is retained, as are the over-sized interchangeable bronzebacked main bearings - two features that have distinguished the Pontiac since its inception. The crankshaft is balanced both statically and dynamically. It carries oil seals, both front and rear. Pontiac's exclusive feature. the harmonic balancer, is built into the fan drive pulley, where it

design prevents roughness and de-

neutralises torsional vibration. The thermostatically-controlled cooling system again utilises the proven cross-flow radiator. This type of radiator is an important advancement in motor cooling. practically eliminating evaporation, thus providing distinct advantages for both hot and cold weather operating.

The metropolitan distributors of Pontisc are Austral Motors, Ltd. Murray Street, Perth.

in all Buick history More people have purchased New Buicks during the past two weeks than in any similar period of any previous year

Freatest success

The New Buick with Body by Fisher has mer with a veritable landslide of public demand. many purchased before ever seeing the car many thousands of others placed their orders the first few days it was on displayother thousands have been taking demonstrations and then making Buick their choice.

More Buick owners have entered ordersmore men and women who owned other cars have turned to Buick-more people who formerly paid from \$1000 to \$2000 higher for their automobiles have purchased Buicks-than

ever before during a similar period in Buick's twenty-six year history.

The total demand during these two weeks is from three to five times as great as that for any other automobile priced above \$1200.

Popularity so overwhelming carries an anmistakable message to every prospective motor car buyer: See the new Buick-drive it - compare it - and you'll quickly discover that it's the greatest dollar-for-dollar value in the entire quality field.
